

gocept.selenium - Bug #12074

screenshot_directory default setting does not work

2013-02-14 11:39 - Daniel Havlik

Status:	Fix released	Start date:	
Priority:	Normal (P3)	Due date:	
Assignee:	Daniel Havlik	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	2.0		
Keywords:			
Description			
This does not work:			
<pre>if screenshot_directory == '.': return os.path.dirname(inspect.getmodule(inspect.currentframe().f_back).__file__)</pre>			
The intention was that the screenshot_directory defaults to the directory where the test which calls assertScreenshot lives.
