

gocept.fssyncz2 - Bug #8862

CDATA sections inside strings cause XML errors upon loading

2011-03-29 11:53 - Thomas Lotze

Status: Confirmed	Start date: 2011-03-29
Priority: Low (P4)	Due date:
Assignee:	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Keywords:	
Description	
<p>If a string (e.g., the content of a page template) contains a CDATA section, it can be dumped to an fssyn checkout without problems but gives rise to an XML validity error on loading.</p> <p>Traceback (innermost last): Module ZPublisher.Publish, line 119, in publish Module ZPublisher.mapply, line 88, in mapply Module ZPublisher.Publish, line 42, in call_object Module zope.app.fssync.browser, line 93, in run Module gocept.fssyncz2, line 151, in run_submission Module gocept.fssyncz2, line 121, in perform Module zope.fssync.task, line 498, in perform Module zope.fssync.task, line 222, in synchronize Module zope.fssync.task, line 332, in synchNew Module zope.fssync.task, line 311, in synchDirectory Module zope.fssync.task, line 222, in synchronize Module zope.fssync.task, line 329, in synchNew Module gocept.fssyncz2, line 112, in createObject Module zope.fssync.task, line 417, in createObject Module zope.fssync.pickle, line 282, in load Module zope.xmlpickle.xmlpickle, line 157, in fromxml ExpatriError: not well-formed (invalid token): line 48, column 13</p>	

History

#1 - 2013-04-17 10:48 - Wolfgang Schnerring

- Status changed from New to Confirmed
- Priority changed from Normal (P3) to Low (P4)
